

## **JOB OFFER**

### **Software engineer at the Optics Laboratory, Murcia University, Spain**

The Laboratorio de Optica de la Universidad de Murcia (LO·UM), directed by professor Pablo Artal, and one of the world leaders research groups in Visual and Biomedical Optics, is seeking a **Software engineer**.

The selected candidate will be involved, among others, in the following tasks:

- Responsible for high-level and for detailed design, creation and testing of software.
- Working and documenting following the lab's quality management system.
- Uses version control software. Participates in code reviews and documenting test activities.
- Responsible for the assembly and installation of IT components and software in production.
- Responsible for general IT related issues.

#### **Required qualifications and experience:**

- University degree.
- Doctorate will be valued.
- English.
- BS in computer science, telecommunication engineering or a related field.
- Knowledge in programming in Microsoft Visual Studio.
- Ability to work in a team.
- Responsible, creative and innovative.

#### **Job conditions:**

- Salary will be within the University of Murcia scale, including social security and institutional benefits.

*Information on the research activities of the LO·UM can be obtained through the web page: <http://lo.um.es>; and on Murcia (Murcia is the Region capital city located in the south-est of Spain, 40 km from the Mediterranean Sea) from the University of Murcia web page: <http://www.um.es/english/general-inf.php>. The weather in Murcia is good year round and the area offers plenty of outdoor and cultural recreations opportunities.*

**Interested candidates should submit the application electronically, including cover letter, CV and list of references to Prof. Pablo Artal ([pablo@um.es](mailto:pablo@um.es)), indicating in the subject the reference: project manager.**

*The search for adequate candidates will be open until the position is filled.*
